OVERVIEW

The Department of Services for Children, Youth and Their Families (DSCYF), Division of Youth Rehabilitative Services (DYRS), is seeking proposals for the provision of mixed gender residential alternatives to secure detention within the jurisdictional age of the Delaware juvenile justice system. DSCYF is **encouraging the development of promising practice or evidence based models** to meet the needs of this population in line with the DSCYF practice of serving youth in the least restrictive, community based setting. A promising practice has been identified as a specific action or set of actions that has demonstrated high degree of success in its setting and the possibility of replication. Evidence based models are defined as the use of interventions for which systematic empirical research has provided evidence of statistically significant effectiveness as treatments for specific problems.

DSCYF/DYRS is seeking three facilities; one to accommodate a mixture of males and females up to ten (10) beds in Kent/Sussex counties as well as two facilities that can house a range of seven (7) to ten (10) youth each in New Castle County.

DSCYF was established in 1983 by the General Assembly of the State of Delaware. Its primary responsibility is to provide and manage a range of services for children who have experienced abandonment, abuse, adjudication, mental illness, neglect, or substance abuse. Its services include prevention, early intervention, assessment, treatment, permanency, and after care. The mission of DSCYF is to assist children, youth and families in making positive changes through services that support child and public safety, behavioral health and individual, family and community well-being. DSCYF wants every child to be safe, live in a stable home, learn and grow in self-esteem, and embrace a sense of hope about the future. DSCYF leads a System of Care approach (both community based and residential) that is child centered and assures effective, timely and appropriate support for Delaware's children.

The mission of DYRS is to support public safety and positive change of children, families, and communities through guidance, education and empowerment. DYRS provides services to youth in the State of Delaware who have been adjudicated delinquent and ordered by the court system to receive rehabilitative services.

In DYRS, there are five secure care facilities that provide secure detention for youth and 24-hour custodial care and treatment for incarcerated, adjudicated youth. Secure care also provides appropriate education, treatment, counseling, recreation, vocational training, medical care, and family focused case management for youth in secure residential facilities.

In addition, DYRS includes Community Services. The Community Services unit provides probation and aftercare services collaborating with numerous contracted community providers offering residential and nonresidential programs and services. Community Services operates to ensure that the risks to the public are minimized, youth are served in the least restrictive environment appropriate for their needs, and the families of the youth are strengthened through Community Services intervention.

DYRS monthly reports CY09 month end snap shot data indicates that DYRS was serving, on average, 2,369 youth per day, ranging from pre-adjudication services, probation to residential care. Month end snap shot data for CY10 (through 7/31/10) places the average number of youth served at 2,175 per day.

Contracted residential alternatives to secured detention services are linked with DSCYF "System of Care" philosophy and are targeted to provide services in the least restrictive, most appropriate setting possible. DSCYF recognizes that children with histories of abuse, neglect, abandonment, delinquency and other serious trauma exhibit a wide range of behavioral and emotional issues and needs. DSCYF is developing a seamless system of care philosophy that integrates the planning and delivery of services. The objective is to have an integrated service delivery system that thinks of the child first, ensures that all children have safe, nurturing places to live and grow, views families as active partners in service delivery, builds on strengths in a culturally competent manner, and provides informal supports and formal services to address the challenges these children and families face. The bidder should be able to demonstrate in their proposal that they understand the "System of Care" philosophy and describe their plans to integrate such philosophy into their service delivery. In a System of Care environment, it is

expected that providers collaborate and partner with each other in order to leverage resources to better address children's needs from a systemic perspective.

BACKGROUND

DE Code, Title 10, Chapter 9, Section 1007 states that pending adjudication no child alleged to be delinquent may be placed in secure detention operated by the Department of Services for Children, Youth and Their Families unless the Court determines that no means less restrictive of the child's liberty gives reasonable assurance that the child will attend the adjudicatory hearing and:

- (1) The child is a fugitive from another jurisdiction on a delinquency petition; or
- (2) The child is charged with an offense, which, if committed by an adult would constitute a felony, including offenses contained within this title, Title 11, and Chapter 47 of Title 16, the Uniform Controlled Substance Act; or
- (3) The child is charged with an offense, which, if committed by an adult would constitute a Class A misdemeanor, provided that offense involved violence, a sexual offense, unlawful imprisonment, or a weapons offense; or
- (4) The child has, in the past, failed to appear at a delinquency hearing and circumstances indicate the child will likely fail to appear for further proceedings, or, absent a prior history of failure to appear, circumstances demonstrate a substantial probability that the child will fail to appear at a subsequent hearing; or
- (5) The child is alleged to be intimidating 1 or more witnesses or otherwise unlawfully interfering with the administration of justice; or
- (6) The child has escaped from a secure or nonsecure detention facility, or has demonstrated a pattern of repeated failure to comply with court-ordered placement pursuant to a delinquency petition in an out-of-home residential or foster care setting; or
- (7) The child has incurred new charges while a resident, as a result of a prior delinquency petition, of a nonsecure detention facility, out-of-home residential or foster care setting and the parent, guardian, custodian or facility refuses to take custody of the child; or
- (8) The child has breached a condition of release; or,
- (9) Having been released pending adjudication on prior charges for which the child could have been detained, the child is alleged to have committed additional charges on which the child would not normally be permissibly held in secure detention under this section.

Prior to making a decision of secure detention pending adjudication the Court shall consider and, where appropriate, employ any of the following alternatives:

- (1) Release on the child's own recognizance;
- (2) Release to parents, guardian, custodian or other willing member of the child's family acceptable to the Court;
- (3) Release on bail, with or without conditions;
- (4) Release with imposition of restrictions on activities, associations, movements and residence reasonably related to securing the appearance of the child at the next hearing;
- (5) Release to a nonsecure detention alternative developed by the Department of Services for Children, Youth and Their Families such as home detention, daily monitoring, intensive home base services with supervision, foster placement, or a nonsecure residential setting.

In line with DE Code, Title 10, Chapter 9, Section 1007 DSCYF has contracted with community agencies to provide pretrial alternative to detention services including residential alternatives to secure detention since 1990. These services have been provided in group settings for males only, females only or mixed gender. These services have also been provided in foster home settings. In late 2002 DSCYF partnered with the Annie E. Casey Foundation in the Juvenile Detention Alternatives Initiative (JDAI) to examine issues of juvenile detention. The Annie E. Casey Foundation indicates the focus of JDAI is on the juvenile detention component of juvenile justice systems because youth are often unnecessarily or inappropriately detained at great expense, with long-lasting negative consequences for both public safety and youth development. JDAI reports its goals as promoting changes in policies, practices and programs to reduce reliance on secure confinement; improve public safety; reduce racial disparities and bias; save tax payers' dollars and stimulate overall juvenile justice reforms.

The Delaware JDAI initiative began its impact on detention populations in 2003 and continues to date through the Juvenile Justice Collaborative. This long standing multi-agency collaborative has cultivated a strong commitment to appropriate use of detention also to the development and utilization of a full and graduated continuum of alternatives to detention including residential settings. DYRS closely monitors utilization of contracted residential alternatives to detention via the DSCYF data system, FACTS (Family and Child Tracking System). FACTS data on the following page offers information to demonstrate recent patterns of utilization for residential alternatives to detention. **Please note the first table offers this information per calendar year. The tables thereafter offer this information per fiscal year.**

TARGET POPULATION

The goal of residential alternatives to detention is to serve males and females within the jurisdictional age of Delaware's juvenile justice system. All youth included in this population are youth who have been arrested and court ordered to be placed in a supervised, temporary, residential, community-based setting pending their adjudication and/or dispositional court hearing. Some youth will also be under DYRS supervision for prior adjudications of delinquency. The service is designed for youth who meet the secure detention criteria listed in DE Code, Title 10, Chapter 9, Section 1007 as outlined above. Providers offering this service must ensure compliance with DSCYF Policy 203 Mixing of Youth Charged with or Adjudicated of Specific Offenses with Dependent or Neglected Children in Residential Facilities which prohibits the mixing of delinquents and non-delinquents in residential facilities except under certain circumstances. DSCYF Policy 203 may be found at: http://kids.delaware.gov/pdfs/pol_dsc203_MixingYouthCharged.pdf

Youth will be screened and referred by outside professionals including staff from various area courts and DSCYF personnel. As per below referrals will arrive twenty-four (24) hours per day, seven (7) days a week, three hundred and sixty five (365) days per year and will include such information about the youth, family and legal status as is available at the time. All admissions will be via court order. It is the expectation of DSCYF/DYRS that all youth referred will be accepted. If a youngster is declined at referral or ejected during the service period for reasons of safety to self or safety to others this should occur infrequently. Bidders will note performance standards relative to this expectation outlined in the Performance Measures section.

Bidders are also expected to assist DSCYF by providing temporary supervision for certain youth who have been arrested, do not meet the legal criteria for residential alternatives to detention but have no place to go, often because their guardians cannot be located or refuse to pick them up at the initial hearing. During normal business hours, these situations are addressed by DSCYF per Policy 209 found at: http://kids.delaware.gov/pdfs/pol_dsc209_ServiceCoordination.pdf

During evening and weekend hours however, DSCYF staff or other referring agency staff availability is limited. The successful bidder shall provide capacity for transporting and temporarily “holding” these youth until Division of Family Services staff, DSCYF’s child welfare division, can arrive and take charge of the child, typically within four (4) hours or less. Abbreviated intake, documentation, and management procedures will apply. Specific bed space for these isolated cases is not required within the scope of this RFP. Bidders should document their ability to provide this temporary supervision and specify a separate, per child rate for serving this special population.

ESSENTIAL PROGRAM COMPONENTS

DSCYF encourages all providers in its network to ensure that treatment occurs in the context of cultural competency. This will include but not be limited to appropriate training for staff in the areas of gender and racial sensitivity, support for religious beliefs and customs, acceptance of sexual preferences by youth, etc.

Core Dimensions

DSCYF describes core dimensions for all contracted services on a continuum in the areas of restrictiveness of living, level of supervision provided and professional level of staff. In regards to restrictiveness of living this setting would be considered open as this setting is an unlocked facility in which the child is supervised. Egress from the facility/residence is possible. Child activities outside the facility/residence may or may not be directly supervised. Education or vocational training is usually provided in another setting (typically current school of registration). In regards to level of supervision this setting would be considered high. This is a site-based twenty-four hour, seven day per week program with three shifts of awake staff. The client receives multiple services which appear on a treatment/service plan and may include but are not be limited to:

- education
- individual counseling
- family counseling
- supervised daily living
- supervised recreational activities
- medical/psychiatric services including nursing

As to professional level of staff this setting would be considered medium/low team intensity. Services provided with a team headed by a specialist in some aspect of behavioral management. The team includes:

- trained, supervised staff specializing in some aspect of behavior change, and
- clinical staff available for consultation and some intervention, e.g. physicians including psychiatrists and psychologists

Licensing

DSCYF/DFS/Office of Child Care Licensing DELACARE regulations and requirements can be found at http://extranet.kids.state.de.us/kids/dfs_home.shtml. Note that bidders must be licensed by Office of Child Care Licensing at the time of the contract award, but not to submit a proposal.

Requirements

- Be available to admit youth, some with complex needs (drug/alcohol issues, mental health, behavioral issues), twenty-four (24) hours a day, seven (7) days a week, three-hundred and sixty-five (365) days per year;

- Supervise youth at all times with the exception of approved off-site activities (i.e. school, work, counseling etc.);

- Provide transportation for the following:
 - To and from the program for admission and discharge. Providers must document their ability to immediately dispatch staff for admission pick up as services are required to be immediately

accessible upon referral 7 days per week, 24 hours per day, 365 days per year. Please not referrals will come from all three (3) counties for all program sites.

- To and from medical, dental, counseling sessions, appointments for evaluative purposes, court appearances, employment and/or employment related training activities and other reasonably required appointments or emergency visits as needed;
- To and from educational program or school;

- The program's ability to provide adequate oversight with administration of medication for youth on prescription and non-prescription medication in line with DELACARE;
- Plans to conduct or obtain an appropriate medical screening/physical examination for referred youth within 72 hours of their arrival (does not apply to youth who have been otherwise screened within the last 30 days and the screen/exam copy can be maintained in the facility youth file);
- Plans for drug screens at admissions;
- The daily schedule with programming. Daily scheduling should teach responsible behavior and engage youth, not provide for excessive idle time. Curriculum/programming should include, but should not be limited to, gender specific programming for each gender; life skills and pro-social behavior skills; cultural activities such as field trips, museum visits and recreational programs; access to activities to enhance learning (computers, educational software, literature);
- Plans for open parent groups (frequently offered educational or topic of interest sessions to assist parents in gaining information/skills). DSCYF encourages partnerships between community agencies to meet this requirement;
- The concept or policy for residents' attire;
- Provisions for limited English proficiency populations;
- The physical documentation (i.e. progress reports, discharge summaries, treatment plans) that will be provided to DYRS;
- Youth and family contact schedules for visits and phone contact;
- Plans for communication between agency and parent(s);

Note: The ability to accept special populations (fire setters, youth charged with inappropriate sexual behavior, pregnant clients, cognitive disabilities etc.) will be given additional consideration;

Assessment

Separate from this RFP, DYRS is pursuing implementation of an evidence based assessment tool for DYRS clients. Proposals should include a statement that ensures bidders will cooperate with the assessment process developed by DYRS. Bidders should be aware that DYRS expects this to be cost neutral to bidders.

Education

In regards to linkages with educational programs, the successful bidder will strive to enroll and transport youth to their home school when possible and practical, depending on the home school's proximity to the residential

alternative to detention. The successful bidder shall enroll the youth in a school identified as appropriate to meet the educational needs of the youth when the placement necessitates a move from one school to another. When a move to a new school is required and to ensure a smooth transition the successful bidder shall:

- Contact school authorities and set an appointment within two (2) working days of placement to arrange the youth's enrollment
- Monitor the youth's progress and initiate or attend conferences as deemed necessary
- Attend and participate in the youth's Individual Educational Placement (IEP) reviews
- Attempt to place the youth in his home school district whenever possible
- Provide the new school with all necessary records required for enrollment

For youth identified as disabled according to Federal and State Regulations (Individuals with Disabilities Education Act (IDEA)) and Section 504 of the Rehabilitation Act of 1973 as amended the successful bidder shall initiate and participate in an IEP or 504 meeting with the local education agency (LEA) to review and revise the youth's current IEP according to State Special Education Regulations and ADA requirements.

Youth identified as special education students or under the age of 16 who cannot be enrolled in an educational program and/or are unable to attend their home school for any reason are required to participate in educational services offered through DSCYF under a Homebound Instructional Model.

Staffing Ratios

Successful bidders will at minimum maintain direct care staff to client ratios in accordance with DELACARE requirements based upon the model proposed. If bidders will operate with ratios that exceed DELACARE, proposals should offer specifics on the intended staff to student ratios planned.

Staffing

Successful bidders shall hire and train appropriately educated and/or experienced staff as per DELACARE suitable for carrying out goals and outcomes as outlined in the proposal. Proposals should include the educational level, related experience and minimum qualifications for each staff position designated for the program. Proposals should also include a brief description of responsibilities for each position.

Proposals should include specifics related to staff training curriculum, new hire requirements before beginning work directly or unsupervised with youth; annual training to maintain certifications and/or based upon new events or procedures. Bidders should offer detail on plans for regular staff meetings and staff scheduling as it pertains to number of hours in a work week, double shifts and weekends.

In line with OCCL Regulations for Criminal History Record Checks for Child Care Persons:

“The overall purpose of these regulations is the protection of children who are in the care or custody of the Department. To this end, persons in residential child care facilities and/or employees or volunteers of the Department or a Department contractor will have their criminal history checked prior to employment or during a conditional period of employment. In addition, foster/respite/adoptive parents will have their criminal history checked prior to approval or during a period of provisional approval with the Department or contracted providers. Each employer may use his/her own employment/acceptance criteria which may be stricter than those described herein.” Proposals should include specific information on agency policy related to this OCCL guideline.

Operating Guidelines

Successful bidders will follow all requirements as indicated in the DSCYF Operating Guidelines for Contracted Client Programs and Services or at http://kids.delaware.gov/pdfs/dscyf_op_gl_fy2010_v2.pdf

FUNDING

There are no start-up funds available under this RFP.

DSCYF/DYRS preference is for per diem/unit cost proposals. However, in this instance, DSCYF/DYRS will accept either cost reimbursable or per diem/unit cost proposals with the goal of moving to a per diem/unit cost methodology as soon as practical. Whether cost reimbursable or unit cost, proposals should include a completed DSCYF Budget Form, Salary Schedule and a supporting narrative which describes the calculations made to obtain the numbers on the DSCYF Budget Form. The budget and salary forms are included in Appendix A of this document and are available online. With the per diem/unit cost methodology DYRS will approve billing for the day that the client is admitted into the program and every subsequent day that the client receives service with the exception of the date of discharge.

MONITORING

The successful bidder must work with DSCYF to provide required reports and documentation of service. Internal review and evaluation of the program is the responsibility of the successful bidder. The successful bidder will submit bi-annual written reports to DYRS with documentation of performance measures outlined in this RFP and/or contract. Failure to submit reports may result in denial of payment.

DYRS will conduct fiscal and program audits and provide consultation to assure quality services and efficient utilization. DYRS agrees to notify the contractor of any deficiencies or concerns and will discuss corrective actions that may be needed.

PERFORMANCE MEASURES

Data for outcome performance measures will be collected from multiple sources which may include but will not be limited to review of DSCYF Reportable Event Reports, DSCYF staff, client and parent interviews/ surveys, site reviews/inspections and interaction with the successful bidder's licensing authorities. The requirements of this paragraph do not extend to the purchase of articles, supplies, equipment, and other day-to-day operational expenses in support of staff providing the services covered by this Contract. No provision of this paragraph and no such approval by the DEPARTMENT of any subcontract shall be deemed in any event or in any manner to provide for the incurrence of any obligation by the DEPARTMENT in addition to the total agreed upon cost under this Contract. For the purpose of this Agreement, licensed independent professionals including, but not limited to, physicians, psychologists, social workers and counselors shall not be considered "subcontractors" as that term is used in this paragraph.
- E. Non-Assignability. The CONTRACTOR shall not assign the contract or any portion thereof without prior written approval of the DEPARTMENT and subject to such conditions and provisions as the DEPARTMENT may deem necessary. No such approval by the DEPARTMENT of any assignment shall be deemed to provide for the incurrence of any obligations of the DEPARTMENT in addition to the total agreed upon price of the Contract.
- F. Interpretation.
1. Third Party Beneficiary Exclusion. This Contract is executed solely for the mutual benefit of the PARTIES. It is the express intention of the PARTIES that no provision of this Contract should be interpreted to convey any rights or benefits to any third party.
 2. Choice of Law. This Contract shall be interpreted and any disputes resolved according to the laws of the State of Delaware. The CONTRACTOR agrees to be bound by the laws of the State of Delaware and to bring any legal proceedings arising hereunder in a court of the State of Delaware. For the purpose of Federal jurisdiction, in any action in which the State of Delaware or the DEPARTMENT is a party, venue shall be in the United States District Court for the State of Delaware.
 3. Headings. The article, section and paragraph headings used herein are for reference and convenience only and shall not enter into the interpretation hereof.
- G. Qualifications to Conduct Business. (Not applicable for Contracts with other Delaware State Agencies or Delaware Municipalities.)
1. Qualification to Provide Service. The CONTRACTOR warrants that it is qualified to do business in Delaware or the state in which services under this Contract shall be provided, and is not prohibited by its articles of incorporation, bylaws, or the law under which it is incorporated from performing the services required under this Contract.
 2. Documentation of Business Status. The CONTRACTOR shall submit to the Contract Manager copies of all licenses, accreditations, certifications, sanctions, and any other documents that may reasonably be required as specified by the DEPARTMENT. If the CONTRACTOR conducts business in Delaware, the CONTRACTOR must possess a valid Delaware Business License, obtainable from the State of Delaware Division of Revenue. The CONTRACTOR shall submit a copy of the license at the time of signature of the Contract; provided, however, that if the CONTRACTOR is a non-profit organization, the CONTRACTOR shall instead submit, at the time of signature of the Contract, written approval from the U.S. Internal Revenue Service of this non-profit status.
 3. Change in Business Status. The CONTRACTOR shall promptly notify the DEPARTMENT of any change in its ownership, business address, corporate status, and any other occurrence or anticipated occurrence that could materially impair the qualifications or ability of the CONTRACTOR to conduct business under this Contract.
 4. Suspension/Exclusion from Medicaid/Medicare. If the CONTRACTOR is suspended or excluded from participation in the Medicaid Assistance Program of the State of Delaware or another state or from the

Medicare Program, or charged with sanctions or violation of such programs, the CONTRACTOR shall promptly notify the DEPARTMENT in writing of such charges, sanctions, violations, suspension or exclusion. CONTRACTOR agrees such suspension, exclusion, violations, sanctions, or charges may, at the DEPARTMENT's discretion, be deemed a material breach of this Contract and good cause for immediate termination of this Contract, and the DEPARTMENT shall not be liable for any services provided after the date of such termination.

H. Records and Audits.

1. Maintenance. The CONTRACTOR shall maintain books, records, documents, and other evidence pertaining to this Contract to the extent and in such detail as shall adequately document the provision of reimbursed services for purposes of programmatic or financial audit. The CONTRACTOR agrees to maintain specific program records and statistics as may be reasonably required by the DEPARTMENT. The CONTRACTOR agrees to preserve and, upon request, make available to the DEPARTMENT such records for a period of five (5) years from the date services were rendered by the CONTRACTOR. Records involving matters in litigation shall be retained for five years or one (1) year following the termination of such litigation (whichever is later).
2. Availability for Audits and Program Review. The CONTRACTOR agrees to make such records available for inspection, audit, or reproduction to any official State of Delaware representative in the performance of his/her duties under the Contract. The CONTRACTOR agrees that an on-site program review, including, but not limited to, review of service records and review of service policy and procedural issuances may be conducted at any reasonable time, with or without notice, by the DEPARTMENT when it is concerned with or about the services performed hereunder. Failure by the CONTRACTOR to accord the DEPARTMENT reasonable and timely access for on or off-site program review or to necessary records for programmatic or organizational audit may, at the DEPARTMENT'S discretion, be deemed a material breach of this Contract and good cause for immediate termination of this Contract, and the DEPARTMENT shall not be liable for any services provided after the date of such termination.
3. Costs Owed. The cost of any Contract audit disallowances resulting from the examination of the CONTRACTOR's financial records will be borne by the CONTRACTOR. Reimbursement to the DEPARTMENT for disallowances shall be drawn from the CONTRACTOR's own resources and not charged to Contract costs or cost pools indirectly charging Contract costs.
4. Contract Termination. The CONTRACTOR shall maintain program records for a period of five (5) years from the date services were rendered by the CONTRACTOR and shall make these records available on request by the DEPARTMENT, notwithstanding any termination of this Contract.

- I. Assignment of Causes of Action Relating to Antitrust Laws. In the event the CONTRACTOR is successful in an action under the antitrust laws of the United States and/or the State of Delaware against a vendor, supplier, subcontractor, or other party who produces particular goods or services to the CONTRACTOR that impact on the budget for this Contract, the CONTRACTOR agrees to reimburse the DEPARTMENT the pro rata portion of the damages awarded that are attributable to the goods and/or services used by the CONTRACTOR to fulfill the requirements of this Contract. In the event the CONTRACTOR refuses or neglects after reasonable notice by the DEPARTMENT to bring such antitrust action, the CONTRACTOR will be deemed to assign such action to the DEPARTMENT.

DEPARTMENT OF SERVICES FOR CHILDREN, YOUTH & THEIR FAMILIES BUDGET PREPARATION GUIDE FOR PURCHASE OF SERVICE CONTRACTS

General Budget Guidelines

Please read these guidelines thoroughly before beginning to complete the budget form.

Depending on the type of contract, agencies may be required to complete the attached budget form in order to determine the appropriateness of agency costs allocated to DSCYF contracts and to assist DSCYF in making cost comparisons among similar programs and services. Those contracts include cost reimbursable contracts and contracts that have previously been cost reimbursable but have been converted to a unit cost contract. A separate budget form must be filled out for each program or facility funded in this contract.

TYPES OF COSTS

The total cost of contracts is comprised of the allowable program costs, plus the allocable portion of agency administrative costs. Therefore, for purposes of this budget form, contracted costs are categorized into those two separate and distinct types: Program Costs and Administrative Costs. Definitions of these costs are provided below. Certain costs incurred by contractors may be deemed unallowable for inclusion in DSCYF contracts and, therefore, should not be included in the proposed budget on the Budget Form. These are enumerated later in this document.

Program Costs

Program costs are defined as those costs incurred in the provision of services to clients (see Cost Category 7 for a further discussion of the difference between program costs and administrative costs of personnel). Examples of program costs are: salaries and applicable other employment costs, travel, contractual services (such as telephone, postage, and rent), supplies, and capital outlay/equipment.

One method of distinguishing administrative personnel from program service personnel is by their proximity to client services. For instance service workers would include staff working with clients and their supervisor, if they spend 100% of their time in supervision. As appropriate, the next level of supervision/management may also be considered as part of the program staff if their principal accountability is related to the on-site oversight of the program. All levels of personnel above this level should be considered administrative staff. Full Time Equivalent (FTE) positions should be prorated if they spend time working in multiple programs. Administrative costs should be detailed in Cost Category 7, Administrative Costs.

Certain costs, such as those for space or utilities, can be either administrative or program-related, depending on what type of employee occupies the space.

Administrative Costs

Administrative costs are defined as those costs incurred to provide central support functions to the service components of the program. Administrative costs are those that have been incurred for the overall general executive and administrative offices of the organization and other expenses of a general nature that do not relate solely to any major program area of the organization. In general, administrative costs cannot be readily identified to a specific program objective without effort disproportionate to the results. This category may also include the allocable share of salaries and fringe benefit costs, operation and maintenance expense, depreciation and use allowances, and interest costs. Examples of costs that fit in this category include central office functions, such as the director's office, the office of finance, business services, budget and planning, personnel, payroll, safety and risk management, general counsel and management information systems.

UNALLOWABLE COSTS

The department will not pay for the following costs:

1. Costs incurred before the effective date or after the termination date of any contract.
2. Costs incurred prior to the Contractor's receipt of the Purchase Order from the Delaware State Department of Finance.

3. Costs incurred in violation of any provision of the DSCYF contract or the DSCYF Generic Standards.
4. Costs of acquisition, renovation or improvement of facilities or land, unless specifically approved by the Cabinet Secretary of the department in writing and in advance of any work being performed. Ongoing costs of facility maintenance and repair are distinguished from improvement and are allowable.
5. Costs of political activities, including: transportation of voters or prospective voters to the polls, activities in connection with an election or a voter registration effort, contributions to political organizations and expenses related to lobbying.
6. Costs of idle facilities. Idle facilities means completely unused facilities that are excess to the organization's current needs. Unallowable costs related to the idle facility include: maintenance, repair, rent, property tax, insurance and depreciation or use allowances.
7. Interest payments, late payment fees and penalties charged by vendors as a result of late payments.
8. Costs related to fines or penalties imposed on the agency or legal fees related to the defense of the agency or any of its employees in any civil or criminal action.

In determining which costs are unallowable, the department used, in part, OMB (Office of Management and Budget) Circular A-87 Federal Cost Principles for State, Local and Indian Tribal Governments. A copy of this document is available on the OMB website

(<http://www.whitehouse.gov/omb/circulars/index.html>) or will be made available to the contractor upon request.

Definitions and Budget Justification Requirements

The first 6 categories relate to the operation of the program or service. Administrative costs that fall into one of these 6 reporting categories should be reported under Cost Category #7, Administrative Costs. For instance, a portion of the salary of the agency Executive Director would be recorded under Administrative Costs either by direct or indirect allocation (see the section entitled Cost Allocation Methodologies for appropriate methods of allocating costs).

Cost Category 1 - SALARIES

Definition: Compensation paid to all regular and part-time employees of the organization (as opposed to contracted workers) who directly participate in the successful completion of program objectives. (See **IRS Pub. 15-A**, Employer's Supplemental Tax Guide, for more information on how to determine whether an individual providing services is an independent contractor or an employee.)

The percentage of salary cost allocated to this contract for each position should be equal to the proportion of time that that position spends working in the contracted program. Salary costs may be allocated to DSCYF programs by either an indirect allocation methodology or a direct allocation methodology depending on which is most appropriate for each position (see the section entitled Cost Allocation Methodologies for a list of acceptable allocation methodologies). *DO NOT report the salaries of administrative staff in this section even if they are allocated to individual programs by a direct allocation methodology such as a time study. Salaries of administrative staff should only be reported in Cost Category 7, Administrative Costs.*

Salary increases, where they can be accommodated within DSCYF contracted budget resources, should be calculated in accordance with established agency personnel policies. For example, if a salary increase is not scheduled until April of the proposed program year, the budgeted salary should be calculated at the current salary rate through March of the proposed year, and at the new rate beginning in April for the remainder for the program year.

Salaries for new positions should be budgeted for the number of months that they can reasonably be anticipated to be filled. The agency should provide a written explanation if it anticipates that a new position will be filled for a period greater than ten months.

JUSTIFICATION REQUIREMENTS: If not already on file with the department or if new position categories are added or position requirements changed, the Contractor shall provide a copy of job descriptions for each staff position that is necessary for the accomplishment of program objectives with the signed contract. The job description should

state the major duties to be performed and the necessary qualifications of the individual hired to perform them. A Salary Detail Sheet must be completed with the information for all positions that are included in this cost category. Instructions for the Salary Detail Sheet are included as a separate attachment.

Cost Category 2 - OTHER EMPLOYMENT COSTS

Definition: Includes employee benefits and taxes related to positions paid for under this contract. Costs may include the following line items:

Unemployment Insurance, Pensions, Health Insurance, Worker's Compensation, FICA, Medicare Tax and other benefits

The percentage of "Other Employment Costs" for any position that is only partially allocated to this contract cannot exceed the percentage of salary charged in the contract for that position. For instance, if 25% of a salary is requested, no more than 25% of any applicable "Other Employment Cost" may be requested.

JUSTIFICATION REQUIREMENTS: Show computation for each employment cost item specified in the budget. Other employment costs should be calculated at CURRENT RATE, not at projected rates, unless the contractor has received notice of a mandated change in benefit rates. Specify the nature of "other benefits" and show relevant computation. This type of cost must be in accordance with written agency personnel policy.

Cost Category 3 - TRAVEL

Definition: Cost of transportation, lodging, and related cost of travel for trips necessary for carrying out contract objectives. Overnight trips must be authorized as provided for in contractor agency personnel policies.

- a. Mileage:** Reimbursement for miles traveled by agency employees/volunteers in private vehicles for the purpose of carrying out program plan objectives must be in accordance with established contractor agency policies. Mileage cost related to travel to and from an employee's principal place of business is not allowable.
- b. Common Carrier:** Bus, train, taxi, or airplane fares.
- c. Meals:** Applies to out-of-state travel only and includes tips for meals. Alcoholic beverages may not be charged.
- d. Lodging:** Applies to overnight travel only.
- e. Other Travel:** Tolls, parking fees, tips for service, baggage check fees. Does not include conference registration.

JUSTIFICATION REQUIREMENTS: The agency should indicate the reimbursement per mile and reimbursement per meal, etc. in their agency policy. Show computation of budgeted figure. Briefly describe the general purposes of travel.

Cost Category 4 - CONTRACTUAL SERVICES

Definition: Services performed by people who are not in the employ of your agency (see definition of employee in Cost Category 1 – SALARIES). Allowable services include the following line items:

- a. Other Professional Services:** Includes professional services such as legal, educational or medical which are not specifically defined in other line items and which assist in successful Postage accomplishment of program objectives.
- b. Postage and Freight:** Includes the costs of postage and/or shipping of program-related correspondence and items when such expenses are not billed as part of the original cost of the item.
- c. Telephone:** All telephone charges related to the operation of program functions.
- d. Utilities:** Includes water and sewerage, electricity, gas for heating (natural and propane), and other heating fuels (listed separately on the budget narrative).
- e. Insurance:** Includes insurance for building, contents, motor vehicles and liability insurance for employees

who work in the program (general liability insurance should be included under Administrative Costs).

- f. **Rental/Mortgage - Building/Office/Land (see line item g for facility Use Allowance):** Includes rental on all space related to the operation of the program. Rental costs are allowable to the extent that costs are reasonable in light of such factors as: rental cost of comparable property, if any, current market value in the area, alternatives available, and the type, life expectancy, conditions, and the value of the property leased. Agencies may be asked to produce data that demonstrates that the cost per sq. ft. is reasonable for the area in question. Funds shall not be requested for rental of facilities that are not utilized for program objectives or that are in excess of the reasonable space necessary to carry out such objectives. In determining the reasonableness of the rent charged, the department will use *OMB Circular A-87, section 38. Rental Costs*. Where utilities are included in the rental amount they must be clearly identified. Mortgage costs are allowable to the extent that they are proportionate to the square footage used by the program and to the value of the property. Where an agency holds a clear title to a facility, one of the methods in line item g should be used to charge for space costs. (see * at end of this section)

- g. **Use Allowance and Depreciation:** This category is appropriately used to record space costs related to DSCYF contracted programs or services where the agency holds a clear title to a building or equipment.

In this case, the agency may use one of two methods but, once chosen, a methodology may not be changed without the approval of the contract manager in accordance with IRS guidelines. The two methods are:

- i. Use allowance: where this method is followed, the use allowance for buildings and improvements, including land improvements, such as paved parking areas, fences and sidewalks, will be computed at an annual rate not exceeding two percent of the acquisition cost. The use allowance for equipment will be computed at an annual rate not exceeding 6 2/3 percent of acquisition cost.
- ii. Depreciation: where this method is followed, the straight-line method shall be used in the absence of clear evidence indicating another method shall be used and the Contractor should provide a depreciation schedule.

In either case, the method chosen (in accordance with OMB Circular A-87) shall be documented and initiated by the independent CPA firm that prepares the annual financial statements and agency audit. Final approval shall be made by DSCYF.

Additional restrictions on the use of these two methodologies are as follows:

- i. The computation of depreciation or use allowance shall be based on the acquisition cost of the assets involved.
 - ii. Any portion of the cost of buildings and equipment donated by the Federal, State or Local government including the land cost is disallowed.
 - iii. Any portion of the cost of buildings and equipment contributed by the organization in satisfaction of a matching requirement is disallowed.
- (see * at end of this section)

For additional guidance on how to depreciate property see IRS Publication 946 or form 4562 or visit the IRS website at <http://www.irs.gov/pub/irs-pdf/p946.pdf> - 454.8KB.

- d. **Rental - Equipment:** Includes rental of all equipment necessary to carry out program objectives.
- i. **Repair/Service/Maintenance:** Includes repair, servicing and maintenance of program facilities, motor vehicles, office equipment, and all other equipment that is necessary to carry out the program.
- j. **Printing and Binding:** Includes printing and preparing for distribution of all program related printed matter, including brochures, flyers, etc. for the promotion of program objectives. This does not include office stationery (see Stationery and Office Supplies) or newspaper display ads (see Advertising).
- k. **Association Dues and Conference Fees:** Includes all membership fees and registration/attendance fees at conference/workshops where such activity or membership is directly related to the accomplishment of program objectives.
- l. **Advertising:** Includes advertising for bids for contracted services, advertising for program positions or advertising for program activities in the public media, etc.
- m. **Other Contractual Services:** Includes costs that cannot be classified under contractual services line items a through l above. Examples of such costs include property taxes, stipends, temporary employment agency fees, etc.

* JUSTIFICATION REQUIREMENTS: For items f & g above, the agency must specify the owner of the building in which the program will operate and the relationship of the building owner to the contracted organization. For all items, above give general purpose and basis for each item requested in this cost category.

Cost Category 5 - SUPPLIES AND MATERIALS

Definition: Supplies and materials must have a cost per unit of less than \$1,000 regardless of the item's expected useful life.

- a. **Food:** Includes food purchased for human consumption as part of a service program.
- b. **Linens and Blankets:** Includes the purchase and repair of linens and blankets for use as part of a service program for residential services.
- c. **Stationery and Office Supplies:** Includes all office stationery and office supplies necessary for program activities.
- d. **Housekeeping Supplies:** Includes supplies necessary for building maintenance and client personal hygiene as part of a site-based program or service.
- e. **Educational, Recreational, Cultural Supplies and Subscriptions:** Includes all such materials useful in the development of program activities or in the provision of direct services through educational means.
- f. **Motor Vehicles - Accessories, Tires, Parts, Motor Oil/Grease:** Includes expendable items, which are purchased and installed by agency personnel. Such expenditures are limited to the repair and servicing of agency-owned or leased vehicles only. Motor vehicle repairs performed by garages, etc. should be budgeted under "Contractual Services" (see #4i).
- g. **Gasoline:** Includes gasoline purchased for the necessary operation of agency-owned or leased motor vehicles used for program activities.
- h. **Other Supplies and Materials:** Includes all supplies and materials that cannot be properly classified above, and that are necessary for program activities.

JUSTIFICATION REQUIREMENTS: Give purpose and basis for each category requested in this line item.

Cost Category 6 - CAPITAL OUTLAY/EQUIPMENT

Definition: Capital outlay items have a cost per unit of \$1,000 or more and a useful life of more than one year.

JUSTIFICATION REQUIREMENTS: Itemize and give purpose for requested costs. All capital purchases shall be the property of DSCYF.

Cost Category 7 – ADMINISTRATIVE COSTS

A more detailed definition of Administrative Costs as distinguished from Program Costs was provided at the beginning of this document. Examples of costs that fit in this category include central office functions, such as the director's office, the office of finance, business services, budget and planning, personnel, payroll, safety and risk management, general counsel and management information systems.

Types of costs that may be included under this category include:

- a. Salaries
- b. Unemployment Compensation
- c. Pensions
- d. Health Insurance
- e. Workers Compensation
- f. FICA
- g. Other Benefits (specify in narrative)
- h. Other Support costs (specify in narrative, including cost per sq. ft. for buildings)
- i. Agency local office administrative costs allocated to DSCYF contracted programs
- j. Agency central office administrative costs allocated to DSCYF contracted programs

In most cases the agency will use either the line item format to report its local agency (as opposed to central headquarters) administrative costs that is represented by items a through h above or it may lump all of those cost items into item I, for instance, if such costs have been allocated to this DSCYF service using a single allocation percentage. If the agency does not have a “parent corporation”, usually located outside of Delaware, for which an administrative cost is allocated to the DSCYF contract, item j. will be left blank.

JUSTIFICATION REQUIREMENTS: The allocation of each line item cost in this category must be supported by a valid methodology that fairly and equitably distributes costs to the program component of the contract in direct proportion to the benefit derived. For each line item, the agency must provide a valid methodology for allocating the cost. The attached Salary Detail Sheet must be completed with the information for all positions that are directly charged in this cost category. Instructions for the Salary Detail Sheet are included as a separate attachment. **COSTS OF THIS TYPE MUST BE REQUESTED AND JUSTIFIED ON A LINE-ITEM BASIS.** Agencies should include an organizational chart that identifies the relationship between the contracted program or service and the rest of the organization.

Additional General Budget Preparation Guidance

Start up costs: such proposed costs for new programs must be clearly identified separately from on going program costs.

Federally Negotiated Indirect Cost Rates: Some agencies may have an Indirect Cost Rate that has been negotiated with one or more federal cognizant agencies. While the Department may choose to accept this rate as the administrative cost percentage for its contracts, nothing in state or federal law or regulation obligates the department to do so. Acceptance of this Indirect Cost Rate must be negotiated with the contract.

Documentation: Even where the Department does not require the agency to provide a narrative justification with the contract, contractors must maintain documentation in their files to support the legitimacy of all costs charged to this contract.

COST ALLOCATION METHODOLOGIES

For each central administrative function, the agency will have to choose an allocation methodology, which will result in a fair and equitable assignment of costs within the organization to each program or service. Where an agency operates only one program or service at a single location, administrative costs can most likely be wholly allocated to that program or service. Where an agency operates multiple programs or services, however, central administrative costs must be apportioned between those programs or services. Program costs may at times need an allocation methodology, such as when program staff split their time between two or more programs or locations. This will be addressed in paragraph five of this section.

Cost allocation is a process whereby the cost of maintaining the central administrative functions of an organization are distributed or apportioned to the specific programs or services operated by the organization. In cost allocation terminology, these programs or services are called *final cost objectives*, i.e. the final purpose for which both types of costs, program and administrative, are being incurred. Within the department, we define this “final purpose” as the provision of such services as: outpatient mental health services, family preservation services or residential rehabilitative services for juvenile offenders. These are just examples of the many services purchased via contract by the department. Administrative costs cannot usually be easily distributed or allocated to final cost objectives where multiple programs exist within an organization. For instance, most large organizations have a human service function that engages in such activities as recruitment, hiring, training, benefit administration and payroll. The cost of operating this function is incurred for the common purpose of the organization. Without keeping detailed records of activities performed and for which final cost objective of the organization those activities were performed (i.e. which distinct service or program benefited from the activity), however, it would be nearly impossible to assign the appropriate share of the cost of the human resources function to a particular program or service.

This is why an organization needs to engage in cost allocation. A sound cost allocation process or methodology allows an agency to allocate the cost of central functions like human resources to final cost objectives in a manner that conceptually approximates the workload expended on behalf of or for the benefit of the final cost objectives. Using the human resource function as an example again, an easily obtainable piece of data that is commonly used to allocate central human resource costs to programs or services is the number of FTE’s who work in those programs or services. One can easily see the relationship between the number of positions employed with a program and the workload required for recruiting, hiring and administering benefits, etc. for those employees. The more people assigned to a particular area of the organization – the greater the workload of the human resources staff, generally speaking. Other representative units of work (like FTE’s in the previous example) or *allocation bases* that are commonly used in the cost allocation process are the number of dollars expended on the provision of a program or service at the client level (in the case of human service programs) or the amount of revenue that a program or service generates for the organization. This method of apportioning administrative costs to programs on the basis of the relative dollar amount spent on or generated by the program is commonly used to allocate multiple central agency administrative functions where no other easily obtainable, more accurate basis for cost distribution is available. Again, the key is that the basis chosen should allocate the cost of central functions to final cost objectives in a manner that *reasonably approximates* the benefits that accrue to the final cost objective as a result of the central function being performed.

An allocation of central administrative costs to programs or services can be either by *direct or indirect* assignment. Where agencies can specifically identify a central service with a benefiting final cost objective, a direct method of allocation is generally preferred. For example, continuing with the example in the preceding paragraph of the human resources function, suppose that an organization operated three programs and the organization had assigned specific human resources staff to work exclusively with each of these programs. Given that the salary and fringe benefit costs for these positions can be easily identified, the agency may wish to assign those costs directly to each program. This would be known as a *direct allocation* of cost in cost allocation terminology. The alternative would be to use a representative *allocation basis*, such as the number of FTE positions or expenditures or revenue related to each program or service to allocate the cost of the human resource function to those programs or services. Using an *indirect* indicator of workload would be called an *indirect allocation* of costs. Indirect allocation methods result in a percentage being applied to the cost of the central function. For example, consider a scenario where the agency operates three programs: Program A has 2 staff, Program B has 3 staff and Program C has 5 staff. If the agency chose the number of employees in each program as its allocation basis to allocate its HR function, then the result would be that Program A would be assigned 20% of the HR costs, Program B would get 30% and Program C would get 50%. Note that in this

example, the number of staff in each program is used as the determinant of cost allocation precisely because there is a direct connection between the number of people employed in a program and the amount of human resources work required to support that program. This would be an *indirect* allocation of the human resources costs. Regardless of which allocation methodology is chosen, the agency will have to justify in the narrative why it chose that particular methodology (either a *direct* or *indirect allocation* of cost) and why it chose a particular allocation basis if the allocation is an indirect one.

So far, we have only addressed administrative costs. However, when staff work directly with clients in multiple agency programs or services, it will be necessary to choose an allocation methodology for those costs as well. For example, an agency that operates several residential programs may have a nurse that rotates his or her time between those programs in some proportion. If, for example, the agency had 5 programs and the nurse spent one day a week at each program, then the agency could allocate .2 FTE or 20% of the nurse's cost to each program. This would constitute a direct allocation. Alternatively, the agency could use the number of clients served in each program (expressed as a percentage of total clients) to allocate the cost of nursing services across programs if that is a stable, more appropriate measure of workload.

Common acceptable allocation bases used to allocate shared costs (either administrative or program) that benefit more than one program or service include:

1. the percentage of agency revenue/expenditures by program
2. the percentage of total personnel costs
3. the number of FTE positions assigned to agency programs (If this method is used, the agency MUST identify all of the other programs or functions to which the person has been allocated and the proportion allocated to each which adds up to a single 1.0 FTE. Furthermore, the agency must be prepared to explain the method it used to determine the proportion of the FTE that could be allocated to each function, program or contract.)
4. Square footage of shared building space allocated to a specific program
5. the number of client "slots" or clients served or expected to be served
6. Time and effort (by time study or on-going activity logs)

The essential consideration in selecting an allocation methodology (either direct or indirect) and an allocation basis (see examples in the preceding paragraph) is that it is the one best suited for assigning costs to programs or services. In choosing a basis upon which to allocate costs, it is usually best to start with those functions where a cause/effect or workload/benefit relationship can easily be identified. Certain types of costs, for instance, lend themselves to a more direct cause and effect relationship than others, like the relationship between the number of staff and the workload of the Human Resources function.

When the expenses in a cost grouping are more general in nature, however, such as the cost of the CEO or Executive Director of the organization, the allocation should be made through the use of an allocation base that produces results that are equitable to both the Department and the Contractor. For example, within DSCYF in our Medicaid rate setting process, the HR function is allocated by FTE's, the accounting function by accounting transactions and the rest of the administrative functions, such as leadership at the department level, planning, and information systems support are combined into a single pool which is allocated based on prior year expenditures incurred by each of three operating divisions. If the Contractor wishes to allocate administrative staff time as a direct cost to programs or services, it may be necessary to conduct time studies in order to substantiate this allocation.

In the final analysis, the methodology(ies) used to allocate costs to DSCYF contracted services must be fully explained and justified in the narrative.

In the column marked 1 Name of Person: Indicate the name of each person whose time is directly allocated to this contract (use a separate line for each person/position). If a person occupies two positions, show both positions with the appropriate time for each. Staff includes full and part-time staff.

In the column marked 2 Position Title: Indicate the position title (and work location, if appropriate). Position Titles should agree with job descriptions.

In the column marked 3 FTE: Indicate the Full Time Equivalent for each position to be charged to this service/facility. Show this number in relationship to the number of hours per week the person works for the agency.

Example: The standard workweek for your agency is 40 hours per week but the person on the line works only 30 hours per week. Column 3 would show 0.75

In the column marked 4 Percentage of Time Spent on Contract: Indicate for each staff person the percentage of his/her total weekly work hours (rounded to the nearest whole number) which will be spent on activities related to the contract.
